

Professional Potting Soil- Plus

Unique Features	Superior Benefits	Why you'll like it
No cheap fillers like bark products	Holds moisture better while maintaining excellent drainage.	Your plants will thrive because they get the optimum moisture and air to the roots.
Superior wetting agent	Takes on water readily, even when bone dry.	Makes it so easy to wet the soil when potting or if you allow the soil to dry out too much.
Balance™ starter fertilizer	Includes micronutrients for healthier plants.	Enjoy deep green leaves and vibrant, colorful flowers!
BMI-1® beneficial microbe package	Over 200 beneficial microbes for a soil that's alive and healthy.	Feel good knowing you're working in partnership with Mother Nature.
Mychorrhizae beneficial fungus	Encourages quicker root development. Aids in nutrient uptake.	The sooner your plants root out, the sooner your neighbors will wonder where you got your green thumb.
Blue Chip controlled release fertilizer	Feeds plants for up to 12 weeks.	Your plants stay beautiful even if you accidentally skip a regular feeding or two.
Lightweight	Bags (and filled pots) are easier to carry.	You won't have to ask your husband to help you move them.
Town & Country Gardens brand	We don't put our name on it if it's not the best!	You've earned it! You deserve beautiful flowers in your pots and planters!

Ingredients:

Canadian Sphagnum Peat Moss & Horticultural Perlite
 Dolomitic Limestone
 Wetting Agent
 Starter Fertilizer- Balance™ 9-6-8 with micronutrients
 Beneficial Microbe Package- BMI-1®
