LANDSCAPING

Designs for Success.

What To Do First

1. Bring in photos of all areas to be considered for landscaping
2. Draw your house and lot according to scale
3. Locate on your drawing: (existing and planned)

Entrances	Evergreens
Walls	Shrubs
Windows	Hedges
Fences	Flower Beds
Septic and Well	Patios
Play Areas (child & adult)	Sidewalks
Clothes Lines	Driveways
Out-buildings	Air Conditioning Unit
Dryer/ Furnace Vent	
Utilities (underground and overhead)	
Shade Trees	

4. Indicate North on your map

Things to Consider

1. Measure areas covered by the canopy of your shade and evergreen trees
2. Privacy areas
3. Special needs such as extra parking
4. Consider any hobbies or interests, such as: ponds, tennis courts, swimming pools, gardens, flower beds, patios, fruit trees or orchards, etc.
5. How much maintenance are you willing to do or what to do?
6. Will you have an underground sprinkling system?

List Plants you Prefer or Dislike

	Preferred	*Not Considered*
Trees		
Shrubs		
Flowers
