

Over The Top II Grass Killer

What is Over The Top II Grass Killer?

Over The Top II Grass Killer is a chemical formulated to **kill** most **undesired grasses** growing in or around trees, shrubs, evergreens, flower beds, vegetables, groundcovers, etc.

*(Certain plants may be damaged by use of Over the Top. Refer to label for specific varieties)

How do I use Over The Top Grass Killer?

- Read and follow directions and precautions on the bottle exactly
- Water area well the day before you spray.
- Spray from mid April to late May when weedy grasses are young and actively growing (4-8" high).
- Mix Dormant Oil or Sticker Spreader with Over the Top according to directions.
- Spray to thoroughly coat the grass leaves, but not to the point of runoff.
- Repeat application in two weeks (except on strawberries).
- Spray only around plants listed on label. Avoid potentilla, peonies, and snow-in-summer.

Please Note:

- Do not mow or cut tops off of grass before spraying.
- Do not apply if rainfall is expected within one hour following application.
- It generally takes 2 to 4 weeks for the grass to die.
- Over the Top will not control most fescue varieties, annual bluegrass, or broadleaf weeds.
- 8 oz. bottle will make 8 gallons of spray (treats approximately 1,800 sq. ft of area)
