

# Soil Enhancer

*“The perfect housewarming gift for your plant.”*

Unique Features	Superior Benefits	Why you'll like it
Great source of humus	Loosens hard clay soil. Increases water holding capacity of sandy soils.	Loosened soil is fun and easy to work. Plants root easily and grow beautifully.
Weed-free	Won't add weed seeds to your soil like some manures can.	No weeds to pull. Makes gardening fun and easy.
10% weed-free manure added.	For natural plant nutrition without fear of burning.	Plants thrive with the added natural nutrition. Your neighbors will be envious.
Rich black color	Well composted. Won't rob nitrogen from soil.	You'll love the feel and look of this rich, black humus.
All natural ingredients	Can be used in vegetable gardens and organic gardens.	Keep your family safe, and your garden thriving.
20 quart bags.	Smaller, easier to handle.	You won't have to ask your husband to help unload them.
Town & Country brand	We don't put our name on it if it's not the best!	You've earned it! You deserve a beautiful and productive garden and yard.

## Ingredients:

60 % Composted forest humus

30% Black reed-sedge peat

10% Steer manure

## Directions for use:

Mix this rich, earthy soil conditioner with your soil for superior root establishment and plant growth. Use on any outdoor plant- trees, shrubs, roses, perennials, annuals, berries, vegetables.

**Trees and Shrubs:** Mix half and half with your soil when planting trees and shrubs.

**Flowers and Vegetables:** Spread 1-3 inches deep on gardens and flower beds and work into top 6 inches of soil.

**All Plants:** We recommend watering in all new plants with Fertilome Root Stimulator per instructions. For long term health we recommend Town & Country brand plant foods or Save-A-Tree as directed on the package.
